ORION'S BELT
ENGINEERING

Our team offers training services and workshops in Program Management, Project Management, Systems Engineering, and other topics! Contact us to discuss how we can create something for your organization!

Past workshops include:

Space Missions Project Management

- Overview of Space Mission Planning Lessons Learned
- Agilefall for Space Systems Techniques for integrating agile management practices with the rigid deadlines of space system development, testing, and launch. Strategies for combining Agile methodologies with EVMS in government projects.
- Risk Management

Risk Management

- Identifying risks versus issues versus watch items
- Ensuring risks are quantifiable
- Effectively communicating risks
- Using Risk and Opportunities Registers
- Managing Management Reserve

Project Management

Learn how to predict problems in areas such as resource allocation and time management. Explore an effective format for communicating risks to upper management. This workshop is based on the book, "[The Power of Measurement and Prediction](#)".

Creativity

Presented a creativity workshop for Anadarko staff covering topics such as mind maps, tips for fostering creativity in teams, and a hands-on team exercise where participants were able to work together on a short creative project.
